BELGIUM, MALTA ★★★★★

Several years ago John Salomone from Malta started a trial over there to get denturism legalised in Malta. Also Matthias Luybaert (IFD's Vice president) from Belgium started a similar case against the Belgian State..

country, they should be able to perform the same competencies in any other European country"

In Malta, where the process has been going on for 12 years, there was a negative verdict a few weeks ago. On the 30th of May there was a verdict from the court in Brussels, Belgium, which was unfortunately negative as well. In both cases denturism was described as an invasive profession and a danger for public health...

After consultation with the lawyers, it appears that we have no choice but to appeal against the unexpected negative advice of the court, otherwise this advice is permanent and final. It is also unclear whether the request in Belgium had to be submitted to the Belgian state or the communities.

They will therefore start an additional procedure against the Flemish Community. The lawyers are also looking into whether and how we can go to the European Court in Luxembourg to declare Belgium and Malta in default, as they ignore the European directive regarding partial access.

Contacts have already been exchanged between the Belgian lawyers and those from Malta,

The forces are united, the war is still on!

**From our Experts
Tips & Tricks**

For even better flow phase of our [XPLEX](#) resin our experts recommend you to keep an eye on the mixing ratio.

The mixing ration can slightly be adapted for a better flow phase. From 13ml:20g to 15ml:20g. This won't affect the physical properties.

All our instructions for use are available [here](#).

Digital Dentures from A to Z

Many dental technicians have several questions about digital dentures: Are digital dentures just a trend or is this a model for the future of my dental laboratory? What experience have fellow practitioners gathered who have already started fabricating dentures digitally? You can find the answer to these questions and more here. Read exciting field reports from peers, learn how to
